

Join us on the exploration visit to:

The Netherlands

first batch, maritime focused

23rd - 29th June, 2024.

OCHENUELL
mobility

Target Cities

Over 150 waterways crisscross Amsterdam, dividing it into approximately 90 mini islands.

Amsterdam

The Hague

The Hague boasts to have one of the largest tram networks in Europe effectively connected to the water ways, and is home to the international Court of Justice.

Rotterdam is not only a major European port but also boasts the title of having the largest capacity for sea-transported goods in the world.

Rotterdam

Highlights

- In-depth knowledge on the fantastic success stories of the maritime domain of the Netherlands in their inland, coast line, hinterlands and port systems
- Explore the ecstatic urban ferry service, its passenger and freight management services, the waterways connectivity to ports and safety systems and their inter-modal connectivity to rails, tramways, road transport, and efficient bus System that has become a reference point globally.
- Freight distribution system including the port performance continuum on a corridor from the port of Rotterdam, the Largest sea port in the world outside Asia.

Sessions

- Workshop sessions
- Presentations from key actors and Experts
- Visit to the respective agencies/stakeholders, guided field trips
- Exposure to cognate educational materials and souvenirs

All participants who complete the tour successfully will earn the International Certificate in Sustainable Transport within the frame of the Africa Sustainable Urban Mobility Course.
